

Hands On: Act It Out

CA Standards
KEY NS 2.5, AF 1.1

Act out the problem with counters. Write the answer. Write the addition sentence.

1. There are 5 dogs in the doghouse. Then 3 more dogs go into the doghouse. How many dogs are there now?

$$5 + 3 = \underline{\quad\quad} \text{ dogs}$$

3. Haley has 7 rings. She finds 2 more rings. How many rings does Haley have now?

$$\underline{\quad\quad} + \underline{\quad\quad} = \underline{\quad\quad}$$

rings

5. Adam has 6 green crayons and 7 red crayons. He gets 9 more red crayons. How many red crayons does Adam have now?

$$\underline{\quad\quad} \bigcirc \underline{\quad\quad} \bigcirc \underline{\quad\quad}$$

red crayons

2. There are 4 fish in the tank. Sam puts in 1 more fish. How many fish are in the tank now?

$$4 + 1 = \underline{\quad\quad} \text{ fish}$$

4. Demoris picks 8 apples. Tad gives him 2 more apples. How many apples does Demoris have now?

$$\underline{\quad\quad} + \underline{\quad\quad} = \underline{\quad\quad}$$

apples

6. Sari has 7 big shells and 8 small shells. She finds 8 more big shells at the beach. How many big shells does Sari have now?

$$\underline{\quad\quad} \bigcirc \underline{\quad\quad} \bigcirc \underline{\quad\quad}$$

big shells
