CA Standards
AF 1.1, AF 1.2

Solve.

1. Olivia has **2** books.
She gets **3** more at the library.

How many books does Olivia have in all?

$$2 + 3 = \underline{\quad\quad} \text{ books}$$

3. Trevor feeds **3** cats.
Then he feeds **7** more cats.
How many cats does Trevor feed in all?

$$\underline{\quad\quad} \bigcirc \underline{\quad\quad} \bigcirc \underline{\quad\quad}$$

cats

5. Joey sees **6** red birds and **7** blue birds in the tree.
Then he sees **4** more blue birds fly to the tree.

How many blue birds does Joey see in all?

$$\underline{\quad\quad} \bigcirc \underline{\quad\quad} \bigcirc \underline{\quad\quad}$$

blue birds

2. Ross has **5** toy cars.
Sam gives him **3** more cars.

How many toy cars does Ross have now?

$$5 + 3 = \underline{\quad\quad} \text{ toy cars}$$

4. Becky picks **6** apples.
Sara picks **3** apples.
How many apples do they pick in all?

$$\underline{\quad\quad} \bigcirc \underline{\quad\quad} \bigcirc \underline{\quad\quad}$$

apples

6. Anita has **7** big shells and **5** small shells.
She finds **6** big shells at the beach.

How many big shells does Anita have in all?

$$\underline{\quad\quad} \bigcirc \underline{\quad\quad} \bigcirc \underline{\quad\quad}$$

big shells
