

# Comparison Problems

CA Standards  
KEY NS 2.1, MR 2.0**Solve.**

1. Van catches **8** fish.  
Maddie catches **4** more fish  
than Van. How many fish  
does Maddie catch?

$$8 + 4 = \underline{\quad} \text{ fish}$$

3. There are **9** ducks in the  
pond. Then **7** more swim to  
the pond. How many ducks  
are in the pond in all?

\_\_\_\_\_ ducks

5. Jackson has **6** red crayons  
and **8** blue crayons.  
He finds **5** more blue  
crayons. How many more  
blue crayons does Jackson  
have than red crayons?

\_\_\_\_\_ more blue crayons

2. Julius sees **8** birds in the  
tree. Joy sees **15** birds in  
the tree. How many more  
birds does Joy see than  
Julius?

$$15 - 8 = \underline{\quad} \text{ more birds}$$

4. There are **16** cows in the  
field. There are **18** cows in  
the barn. How many more  
cows are in the barn than in  
the field?

\_\_\_\_\_ more cows

6. Zoe has **9** yellow ribbons  
and **7** green ribbons.  
She gets **6** more yellow  
ribbons. How many more  
yellow ribbons does she  
have than green ribbons?

\_\_\_\_\_ more yellow ribbons
