

Hands On: How Big Is 1,000?

CA Standards
 NS 1.1, NS 1.0

The Space Museum store sells glow-in-the-dark star stickers in the packages shown below. For Problems 1–5, tell if each person bought *more than 1,000*, *less than 1,000*, or *exactly 1,000* star stickers.

1. Tim bought 5 rolls of star stickers.

2. Carol bought 9 boxes of star stickers.

3. Anita bought 10 rolls and 5 packs of star stickers.

4. Jamal bought 10 sheets and one roll of star stickers.

5. Jonah bought 4 rolls, 58 sheets, and 20 packs of star stickers.

6. Kelly wants to put 1,000 star stickers on her bedroom ceiling. If Kelly got 5 rolls of star stickers for her birthday, how many more stickers would she need to buy? How many more rolls of stickers would she need to buy? How many more sheets of stickers?
