

Name _____ Date _____

Round 2-Digit and 3-Digit Numbers

CA Standards
NS 1.4, NS 1.0

Use the table to solve.

1. How many movies were made in the United States? What is that number rounded to the nearest ten? To the nearest hundred?

2. Which countries' number of movies are about 200 when rounded to the nearest hundred?

3. Which countries' number of movies seem to be already rounded to the nearest ten? Why might someone think this?

5. **Write About It** When rounded to the nearest ten, a number is 100. Does this mean that the original number must be a three-digit number? Use one of the numbers in the table to explain your answer.

Countries That Make the Most Movies	
Country	Movies Made in a Recent Year
India	764
United States	628
Japan	270
Philippines	220
France	181
Hong Kong	146
Italy	108
Spain	97
United Kingdom	92
China	85

4. **Reasoning** When my number of movies is rounded to the nearest ten, it is 50 more than my number of movies rounded to the nearest hundred. What country am I?

6. How useful would a bar chart be if it showed all the movie data rounded to the nearest hundred? Explain your answer.
