Yang collects stamps from countries in South America. He made the pictograph below to show his collection. Use the pictograph to solve each problem.

1. How many stamps does Yang have from Argentina?

2. How many stamps in Yang's collection are from Venezuela?

3. From which country does Yang have the most stamps? How many of those stamps does he have?

4. Yang's sister Hyun looks at his pictograph and says that Yang has 8 stamps from Chile in his collection. What mistake did Hyun make?

5. Yang wants to take his stamps from Brazil and Venezuela and put them on a separate page. How many stamps will be on the page?

6. If Yang gives 16 Brazil stamps to his sister Hyun, how many more Venezuela stamps than Brazil stamps will he have?
