

Build Solids

CA Standards
MG 2.0, MG 2.5

Solve. Use the figures below.

1. I have 6 faces. They are all squares.
What solid figure am I?

3. I have 6 faces. Some faces are
squares and some are rectangles.
What solid figure am I?

5. I am a solid figure with 8 edges and
5 vertices. What am I?

2. I have 1 face that is a square and 4
faces that are triangles. What solid
figure am I?

4. I am a solid figure made of
two cubes put together. What
am I?

6. I am a solid figure with 6 faces,
8 vertices, and 12 edges. My edges
are not the same length. What am I?
