# Estimate Products

CA Standard  
MR 2.5

The table below shows the amounts of some foods the average American eats each year. Estimate the product. Round the larger factor to its greatest place.

Average American Yearly Diet	
Food	Amount
Bread	46 pounds
Chocolate	13 pounds
Dairy Products	582 pounds
Fish	51 pounds
Fruit	261 pounds
Meat	270 pounds
Potatoes	141 pounds
Sugar	67 pounds
Vegetables	267 pounds

1. About how much chocolate does an average American eat in 5 years?

\_\_\_\_\_
