

# Line Plots

**CA Standards**  
**KEY** SDAP 1.3, SDAP 1.4

The line plot below shows the number of touchdowns that were scored in each Super Bowl game from 1990 to 2002. Use the line plot to answer.

**1.** In how many of the Super Bowls were exactly 5 touchdowns scored?

\_\_\_\_\_

**2.** In how many of the games were more than 7 touchdowns scored?

\_\_\_\_\_

**3.** The 1995 Super Bowl had the greatest number of touchdowns. How many touchdowns were scored during that game?

\_\_\_\_\_

**4.** What is the difference between the greatest and fewest number of touchdowns scored?

\_\_\_\_\_

**5.** In how many of the games were fewer than 6 touchdowns scored?

\_\_\_\_\_

**6.** In how many Super Bowls were an even number of touchdowns scored?

\_\_\_\_\_
