

# Pictographs

**CA Standards**  
**KEY** SDAP 1.3, MR 2.0

The table shows the number of gold medals that each of the top four countries won at the 2000 Summer Olympic Games held in Sydney, Australia.

Olympic Gold Medals Won	
Country	Number of Medals
Australia	16
China	28
Russia	32
United States	40

1. Make a pictograph of the data in the table. Choose a symbol that stands for 4 gold medals.
2. How many pictures did you draw for China in your pictograph? Why?

3. For which country did you draw the most pictures? Why?

---

---

5. Germany won 13 gold medals in the 2000 Summer Olympics. How would you display this data on the pictograph?

---

---

4. Why is 4 a good choice for the number of gold medals that each symbol stands for in the pictograph?

---

---

---

6. The Netherlands won 20 fewer gold medals than Russia. How would you show the Netherlands' data on the pictograph?

---

---
