Leah is randomly picking marbles from a bag that only contains blue, green, red, and white marbles. The results are recorded in the line graph below.

1. What is the total number of marbles Leah took from the bag?

3. Which color is the least likely to be picked next?

5. What is the likelihood of picking a yellow marble from the bag?

2. How many more blue marbles than red marbles were drawn from the bag?

4. Which color is the most likely to be picked next?

6. If twelve red marbles and eight blue marbles are added to the bag, which marble is most likely to be picked next?
