

# Estimate and Measure Capacity

**CA Standards**  
 MG 1.1, MG 1.4

For Problems 1–4, use the labeled capacity in each pair of containers to estimate the capacity of the unlabeled container in the pair. Then solve Problems 5–6.

1. About how many cups of hot chocolate will fill the large mug?

\_\_\_\_\_

2. About how many pints of yogurt are in the small carton?

\_\_\_\_\_

3. About many quarts of milk are in the small jug?

\_\_\_\_\_

4. About how many gallons of water will fill the large cooler bottle?

\_\_\_\_\_

5. Which container above has a capacity of 1 pint?

\_\_\_\_\_

6. Which container above has the greatest capacity? Which container above has the least capacity?

\_\_\_\_\_

\_\_\_\_\_
