

Estimate and Measure Weight

CA Standards
MG 1.1, MG 1.0

Solve.

1. Katie reads the scale and it says 18 ounces. Is this more or less than one pound? How do you know?

2. Katie is recording the weight of a pencil. Should she use ounces or pounds? Explain.

3. Kyle is packing notebooks in a suitcase. The suitcase can weigh no more than 75 pounds. About how many notebooks will Kyle be able to pack in the suitcase?

4. Kyle is trying to determine the weight of a blender. What is a good estimate for the weight of a blender?

5. Katie is at a unique fruit stand. Every fruit costs the same amount, \$1.50 per pound. About how much does a whole watermelon cost?

6. What is the difference in price between 12 lemons and 2 water melons?
