

Write and Evaluate Expressions

CA Standards
KEY AF 1.2, AF 1.0

Write and evaluate an expression to solve each problem.

1. Libby had 16 baskets of apples. She sold 12 baskets. Then she filled 8 more baskets. How many baskets of apples does she have now?

2. Joel saved \$15 in May and \$13 in June. Then he spent \$20. How much money does Joel have now?

3. Viola made 45 "I ♥ Redwoods" T-shirts to sell at the fair. She sold 39 T-shirts. Then 3 people returned their shirts because they had "I ♥ Redwoods" printed on them. How many shirts did Viola have left at the end of the day?

4. Richie found 12 marbles under his bed, 7 marbles on his desk, and 10 marbles on the floor of his closet. He put all the marbles in his pocket and 8 fell out of a hole. How many marbles does Richie have left?

5. Alani makes beaded bracelets. She had 86 round beads and 79 square beads. She used all but 9 of the round beads and all but 8 of the square beads. How many beads did Alani use?

6. Kenny blew up 95 red balloons. 26 of them broke. He blew up 31 blue balloons. 12 of them broke. He blew up 15 green balloons. None of them broke. How many blown-up balloons does Kenny have?
