Name _____ Date _____

Multiply 2-Digit Numbers by 2-Digit Numbers

A small crafts store in Anaheim called **I'm Crazy About Colors!** sells boxes of markers in five sizes.

Box Sizes	Number of Markers per Box
Small	11
Medium	36
Large	54
Extra-large	78
Super-duper	99

Use the table to solve each problem.

1. On Monday, the store sold 18 medium boxes of markers. How many markers were sold in all?

_____

2. On Tuesday, the store sold 73 small boxes of markers. How many markers were sold in all?

_____

3. On Wednesday, the store sold 12 large boxes and 11 medium boxes of markers. How many markers were sold in all?

_____

4. On Thursday, the store sold 20 extra-large boxes and 38 super-duper boxes of markers. How many markers were sold in all?

_____

5. How many more markers are in 75 small boxes than in 21 medium boxes?

_____

6. How many more markers are in 99 large boxes than in 53 super-duper boxes?

_____
