

# Rotational Symmetry

**CA Standards**  
 MG 3.4, MG 3.5

Solve each problem. Use figures a–h below.

**1.** Write the letter of a figure that has rotational symmetry after a quarter, a half, and a three-quarter turn.

\_\_\_\_\_

**2.** Write the letter of another figure that has rotational symmetry after a quarter, a half, and a three-quarter turn.

\_\_\_\_\_

**3.** Write the letter of a figure that has rotational symmetry after a half turn only.

\_\_\_\_\_

**4.** Write the letter of another figure that has rotational symmetry after a half turn only.

\_\_\_\_\_

**5.** Write the letter of a figure that does not have rotational symmetry.

\_\_\_\_\_

**6.** Write the letter of another figure that does not have rotational symmetry.
