---

---

---

## Way to Go!

---

### Draw a Picture

Draw the red dots and the other dots.

Circle how many more red dots there are.

**Drawings will vary. There should be 18 red dots and 12 black dots. 6 red dots should be circled.**

### Try This

#### Write a sentence.

Tell which way Cheri and Benny chose to walk home.

**Answers will vary. Cheri and Benny chose  
to walk the shortest way home. They walked  
along River Street.**
