Letter to Family

Dear Family,

I would like you to do an activity with your child that involves the number of people in your family. I would like you and your child to count the number of children (12 years old or younger), the number of teenagers (13 years old through 19 years old), and the number of adults (20 years old or older). Once you have these three numbers, I would like you to help your child add all three numbers to find the total number of people in your family. Please help your child write this down on a piece of paper, and have him or her bring it to school.

In class, I will pair your child with another child and they will compare the number of people in each of their families.

Your child needs to bring this to school by _____.
(date)

Thank you for your help.

Sincerely,
