

Name _____ Date _____

Letter to Family

Dear Family,

I would like you and your child to look through a newspaper or a magazine and cut out something that has a number between 100 and 1,000. Circle the number and cut out the part of the newspaper or magazine that it is in.

In class, I will put children in groups and have them share their numbers with each other. I will have them talk about their numbers and about what is alike in the numbers and what is different.

Your child needs to bring this to school by _____.
(date)

Thank you for your help.

Sincerely,
