Letter to Family

Dear Family,

I would like you to do a project with your child. First, find solid shapes around the house, such as small empty boxes and cans, that you do not need anymore. Make sure there is nothing sharp on the shapes that could hurt someone. Then build something with your child using the shapes and glue. You and your child might want to put the shapes together in an interesting way or make something, such as a model car, out of the shapes.

In school, the children will look at each other's constructions. They will talk about the different shapes they see in each one.

Your child needs to bring this to school by _____.
(date)

Thank you for your help.

Sincerely,
