

Problem Solving: Find a Pattern

Mario gets **2** new dinosaur models each week.
How many dinosaur models does he have
after **6** weeks?

UNDERSTAND

What do I know?

PLAN

I think I can use a pattern
to solve?

How can I show the pattern?

SOLVE

I will write a **2** in the first box.
Now I will count by **2s** to solve.

Week 1	Week 2	Week 3	Week 4	Week 5	Week 6

Mario has _____ dinosaur models after 6 weeks.

LOOK BACK

How can I check my answer?
