Problem Solving: Use a Table

Sue leaves Detroit in the morning for New York City.

Dad gets to the New York City train station at 11:00.

How long does Dad have to wait before Sue's train arrives?

City	Time
Detroit	6:00 A.M.
Chicago	7:30 A.M.
New York City	12:00 P.M.

UNDERSTAND

What do I know?

What do I need to find out?

PLAN

How can I use the table to help me?

SOLVE

How can I figure out how long Dad has to wait?

Dad has to wait _____ hour.

LOOK BACK

Is there another way I could solve the problem?
