

Problem Solving: Use a Picture

Answer the questions. Solve the problem.

JoAnn uses squares of material to make a rug for her dollhouse. How many squares does she need to make the rug?

_____ squares

UNDERSTAND

What do I know?

What do I need to find out?

PLAN

I will count each row of squares.
Then I'll add the rows.

Do I need to know what each square measures?

SOLVE

I'll add $5 + 5 + 5$.
