Letter to Family

Dear Family,

I would like you to do an activity with your child that involves measuring a room inside your home. I'd like you and your child to pick out a small room, such as a closet or a bathroom. You could even use a doghouse if you have one. I'd like your child to measure the distance around the room by walking and putting his or her feet heel to toe and counting the number of feet all the way around the room. Be sure to remember where your child started! Have your child draw a picture of the room measured and record the measurement.

In class I will have children share their drawings and talk about what they measured and how.

Your child needs to bring this to school by _____.
(date)

Thank you for your help.

Sincerely,
