

## Use a Picture

Answer the questions. Solve the problem.

JoAnn uses squares of material to make a rug for her dollhouse. How many squares does she need to make the rug?

**UNDERSTAND**

What do I know?

What do I need to find out?

**PLAN**

I will count each row of squares.  
Then I'll add the rows.

Do I need to know what each square measures?

**SOLVE**

I'll add  $5 + 5 + 5$ .

**LOOK BACK**

How can I check my answer?
