

Reasonable Answers

Answer the questions. Solve the problem.

Shana put 5 potatoes on a scale.
They weigh 4 pounds. She puts
3 more potatoes on the scale. About
how many pounds of potatoes does
Shana have now?

7 pounds 25 pounds 3 pounds

UNDERSTAND

What do I know?

What do I need to
find out?

PLAN

I will cross out answer choices
that don't make sense. Do I
need to know exactly how much
the potatoes weigh now?

SOLVE

I will find the most
reasonable answer.
