

Choose the Most Reasonable Answer

Circle the most reasonable answer.

Mai has a birthday party. She invites 12 friends.

There are 4 boys in the group that she invites.

Did Mai invite more boys or more girls to the party?

8 girls

more boys

more girls

UNDERSTAND

What do I need to find out?

What do I know?

PLAN

How can I use what I know to find how many girls will be at the party?

Do I need to add or subtract?
Will a picture help me?

SOLVE

8 more girls than boys were invited. 8 girls is an answer choice. But does it answer the question?
