

# Problem Solving

## Make a Table

Children in soccer camp do 20 practice kicks each day. The camp lasts for 5 days. How many kicks do the children do by the end of camp?

**UNDERSTAND**

What do I need to find out? \_\_\_\_\_

What do I know? \_\_\_\_\_

\_\_\_\_\_  
\_\_\_\_\_

**PLAN**

I can make a table to solve.

What information should I put in the table? \_\_\_\_\_

\_\_\_\_\_

**SOLVE**

Make a table.

Look for a pattern in the table.

Count kicks for \_\_\_\_\_ days.

The children do \_\_\_\_\_ kicks by the end of camp.

Days	Kicks
1	
2	

**LOOK BACK**

How does looking for a pattern help you complete the table?
