

Observe a Plant

Steps

- 1. Safety:** Wear goggles! Take the plant out of the pot. Carefully shake the dirt off the roots.
- 2. Observe** Use a hand lens. Look at parts of the plant.
- 3. Record Data** Draw a picture to show each plant part that you observe.

- 4. Put the plant back in the pot. Safety:**
Wash your hands!

Name _____

Think and Share

1. What parts did you see when the plant was in the pot?

2. What part of the plant was in the soil?

Investigate More!

Ask Questions Finish the question. What would happen to the plant if it were missing its _____? Make a plan to find an answer.
