

Make Sounds

Steps

1. Stretch a rubber band around a can, across the open top. **Safety:** Wear goggles! Hold the rubber band carefully!
2. **Observe** Use your finger to pluck the rubber band. Look and listen closely.
3. **Record Data** Write about what you see and hear.

Think and Share

1. **Compare** How did the rubber band change when you plucked it?

Name _____

2. Infer How do you think sound is made? Tell why.

Investigate More!

Solve a Problem Think of two ways to change the sound the rubber band makes. Then try them. Share your ways with the class.
